PENNSYLVANIA

Counting Accuracy Chart

For Models 7500, 7600, 8400 and 40SS Scales and Indicators.

Please Note: Many factors affect scale performance and counting accuracy. Environmental conditions, equipment conditions, calibration and non-uniform parts may all adversely affect scale counting performance. Please see your Pennsylvania Scale Dealer for more information on what is the right scale for your application and recommendations for keeping your Pennsylvania Scale products in excellent working condition
